

COVID-19 Visitation Guidelines

These guidelines are to help protect your child, your family and the staff who care for your child at Elizabeth Seton Children's Center from coronavirus. *In the event of a confirmed positive COVID-19 test in a resident or staff member, visitation will be suspended for 14 days, except in cases of personal caregiving visits, compassionate caregiving, end-of-life visits or other special circumstances.*

Visits will be from 8:00 a.m. to 11:00 p.m. daily.

Before and upon your arrival

- Elizabeth Seton Children's Center will provide rapid COVID-19 tests upon arrival at the children's center and we strongly encourage all visitors to receive a test.
- Visitation inside is open to all loved ones ages 13 and older. Visitation outside can include children ages 12 and younger.
- Check in with security when you enter *and* exit the building.
- Clean your hands using the sanitizer provided. You will be given a hospital-grade mask.
- Your temperature will be taken at our temperature kiosk and you will be asked to complete our electronic Employee and Visitor Health Screening Questionnaire. Please note that if you have symptoms of COVID-19, or do not pass the screening questions, you will not be able to visit.

During and after your visit

- **Again, you will be given a hospital-grade mask when you arrive, which you are required to wear at all times during your visit; masks must cover both your nose and mouth.**
- Masks must be worn by all visitors regardless of age or vaccination status including on the playground and/or when outside.
- In keeping with our masking at all times, eating or drinking in the children's center is only allowed in the Big Dipper café on the first floor.
- Keep at least six feet from other residents, visitors and staff at all times, unless staff are helping you to care for your child.
- Stay in your designated visiting area with your child and do not go to other floors. Areas where visits occur will be disinfected by our Environmental Services team.
- Call your child's pediatrician if you develop COVID-19 symptoms after your visit.
- If your child is unable to leave their shared room due to isolation precautions, visitation will be accommodated with appropriate PPE (mask, gown and gloves).
- Outdoor visits on our playground are encouraged whenever possible.

Thank you for your cooperation in keeping everyone safe! We encourage you to do your part in the fight against COVID-19 by getting vaccinated! Together, we are Elizabeth Seton Children's strong!
