Quality and Inspection Information

Both the NYSDOH and the Centers for Medicare and Medicaid Services (CMS) maintain information on nursing homes that includes performance on quality measures, complaints, inspection results, and citations and enforcement actions, as well as any penalties imposed on a nursing home. CMS has created a tool called Care Compare to help consumers search for and select nursing homes and other health care providers.

According to CMS, the information it maintains on nursing homes should be used with other information you gather about providers and facilities in your area. In addition to reviewing the Care Compare information, you should talk to your doctor, social worker, or other health care providers when choosing a provider. Additional tips for selecting a nursing home can be found in CMS's guide to selecting a nursing home:

<https://www.medicare.gov/care-compare/en/assets/resources/nursing-home/02174-nursing-home-other-long-term-services.pdf?redirect=true>

The following web addresses can provide quality and compliance information:

https://profiles.health.ny.gov/nursing_homes/index

On the NYSDOH site, select the nursing home (after using the search box or the drop-down menu at the top under "Nursing Homes"), and open the Inspections tab to view any Complaints, Inspection results including any Citations, and any Enforcement actions against the nursing home.

<https://www.medicare.gov/care-compare/?providerType=Nursinghome&redirect=true>

On the CMS Care Compare site, enter the name of the nursing home in the search box. Click on the name of the nursing home to view Inspection results as well as any penalties that have been imposed.
